

## STEEL FABRICATORS & LABOUR BROKERS

---

### Introduction

R'nK Engineering is a registered company situated in Pietermaritzburg, South Africa. The business is owned by Khethang Makobosheane and Rodrick Horsley who founded it in 2016.

The company is involved in **STEEL FABRICATION** and **LABOUR BROKING**. Their expertise in the areas of Fabricating **steel structures, Grandstands, Bridge's, Tanks and pipe lines**. And as Labour brokers we provide a wide range of qualified artisans (**Supervisor, Forman, Pipe fitters, Boilermakers, Coded welders, Argon welders CO2 welders, Stick welders Mechanical fitters, Fitter and turner**) at affordable rates. R'nK engineering is well known for its expert consulting, quality workmanship and professional service delivery.

### Nature of the business:

Rodrick and Khethang founded R&K Engineering in 2016. The business deals with structural and general engineering. Rodrick and Khethang have also been commended on their consulting expertise. They have won tenders since they started their business thus creating an exceptional record for professionalism and success in all the projects they are involved in.

Their ability to adapt with the turbulent fluctuations of the economy has made them stand firm and made the company a force to be reckoned with.

R'nK Engineers is constantly improving their work by using the latest technology available in the field of engineering thus making them always progressive and able to adapt to all the needs of their clients. This leads to excellent service delivery.

## Owners Background

Experience in general engineering (Pipe work in both mild and stainless steel, structural steel, plate work, factory shutdown and labouring brokering)

Rodrick has over 40 years in general engineering as a boiler maker and a welding inspector. He has worked in South Africa, New Zealand, Australia, Canada and the United States of America as a boiler maker. He did not stop just as a boiler maker but he also opened up his own companies namely Alpha Projects, Steel Care, and Raider Recruitment. With him running his own companies we can conclude that he experienced in the world of business.

Khethang has 2 years of experience working as a steel supplier, fabricator and erector. He has served as a manager so we can conclude that he has experience in running and business management.

## Passion for building and growing business in engineering

Our driving passion for opening the business (R &K) is fuelled by the love for what we do. We love to see the satisfaction on our clients face as what they have been dreaming about turns into a reality. Our belief that is that no imagination in the clients must be left unturned to make it come to pass.
